1-to-8 cassette splitter

1-to-8 cassette splitter

1×8 LGX Box PLC Splitter with SC/APC Connector
 PLC stands for Planar Lightwave Circuit. PLC splitters are used to distribute or combine optical signals. It is based on planar lightwave ...

High-density 1×8 Cassette PLC Splitter from Telhua. Features low insertion loss, tool-less installation, and compliance with IEC/TIA/EIA/RoHS standards. Ideal for telecom and data center applications.

1×8 PLC Splitter SC APC Cassette Module is a Planar lightwave circuit (PLC) splitter is a type of optical power management device that is fabricated using silica optical waveguide technology to distribute ...

1x8 SC/APC Cassette Card Inserting PLC Splitter Module 1:8 Ports Fiber Optical PLC Splitter for Home Wiring, Engineering Projects, Fiber Optic LAN

It is designed for splitting a single input signal at 1260-1650nm equally into eight output signals, and is available with SC/APC connector.

Simply connect this splitter to the MDF to create the 8 separate fiber runs. The connectors are high quality APC polished to reduce loss and 100% factory tested.

This GTLAN splitter is the ideal choice for operators and technicians looking for optical performance, ease of installation and connector protection in an efficient and secure cassette format.

About this item 1x8 insert type PLC Splitter. The interface type is SC/APC, fast and practical. Applicable to home wiring, engineering projects, corporate companies, fiber optic LAN. It has compact structure ...

1x8 PLC Splitter LGX Module Cassette is designed to house a Planar Lightwave Circuit (PLC) Splitter with SC/APC connections by plug and play for rack mount. The LGX Cassette Splitter features low ...

This 1x8 cassette PLC fiber optic splitter is with plug-in-play design which enables fast deployment of fibers without splicing machine. It can save time and space but still provides reliable protection for the ...

This 1x8 cassette PLC fiber optic splitter is with plug-in-play design which enables ...
