

10kV Rectangular Busbar Fittings

10kV Rectangular Busbar Fittings

Lightweight, easy to machine, and corrosion resistant—all with material certificates for traceability. Choose from our selection of bus bars, including over 650 products in a wide range of styles and ...

Burndy offers custom bus bar lengths up to 12 feet, allowing for tailored solutions. Each bus bar can be equipped with or without brackets and insulators, with an optional Plexiglass cover available to ...

These board-to-busbar connectors are designed to meet OCP V3 power distribution architecture standards and are ideal for use in power shelves, ...

These board-to-busbar connectors are designed to meet OCP V3 power distribution architecture standards and are ideal for use in power shelves, BBUs, server/storage sleds, EV ...

Tracking resistant busbar heat shrink tube, made of radiation cross-linked polyolefin.

Providing the equipment and skills to produce even the most complex busbars with maximum efficiency by optimizing materials and applying best practices. Molex offers a range of busbar solutions to meet ...

nVent ERIFLEX offers a variety of busbar accessories, including cabling sleeves, busbar clamps and connectors, and supports.

Our busbars can be combined with fasteners of all shapes and sizes but when combined with our HPLB (High-Power Lock Box) terminal we can eliminate all loose fasteners and provide a self-aligning, ...

Constructed from halogen-free, flame-retardant polyolefin, it offers excellent thermal and mechanical durability, along with a reliable 2:1 shrink ratio for optimal fit and coverage. This product is flame ...

SKBT-MV Medium Voltage Heat shrink busbar insulation tubing is a kind of continuous tubing made of radiation cross-linked polyolefin which carries excellent insulating performance. Typical applications ...

Medium voltage busbar heat shrink tubing can be used for the insulation protection of medium-voltage switchgear busbar since its good insulation performance and flexibility.
