

1G OEM ODM Pluggable Optical Module

1G OEM ODM Pluggable Optical Module

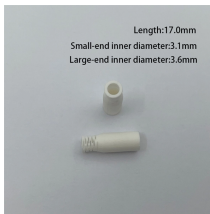

The optical amplifier module developed by GIGALIGHT is designed for long-distance transmission systems in digital optical fiber communication. It is specifically designed to work in conjunction with ...

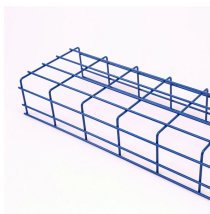

Built using the industry-standard SFP (Small Form-factor Pluggable) design, this module enables stable Gigabit Ethernet transmission over single-mode fiber at a wavelength of 1310nm, supporting ...

Each module undergoes strict quality control, multi-step testing, and compatibility validation to ensure stable operation in mission-critical environments. We also offer OEM/ODM services, allowing ...

The 1000BASE-T copper SFP module supports a link length of up to 100m on standard category 5 unshielded twisted-pair copper cabling. The 1000BASE-T Copper SFP modules allow 10/100/1000 ...

Source premium optical transceivers (1G to 800G) direct from our Wuhan factories. 100% brand compatible, OEM custom options, and rigorous quality testing.

High-quality 1G CWDM SFP transceivers available in various wavelengths to meet your network requirements. Enhance your network performance with our reliable options today!

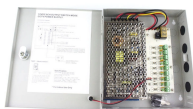

FS gigabit ethernet transceiver solutions provide fibre or copper options including 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-T etc., from 100m to 160km, for 1G switches, routers, servers, NICs ...

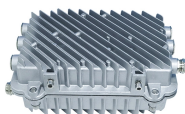

These small, modular optical interface transceivers offer a convenient and cost-effective solution for an array of applications in the data center, campus, metropolitan-area access and ring ...

SFP transceiver that supports 1G connections up to 550 m using multi-mode fiber with a duplex LC UPC connector.

Deployment flexibility with 800G (dual 400G), 400G, 100G, 50G, 40G, 25G, 10G or 1G modules. Hot swappable to maximize uptime and simplify serviceability Data rates from 1GbE to 25GbE supported ...

Source premium optical transceivers (1G to 800G) direct from our Wuhan factories. 100% brand compatible, OEM custom options, and rigorous ...
