---	--

FTTH Box comply with salt spray test, crush test and temperature cycling under international standard. All are RoHS, and REACH certified to ensure the safety and security.

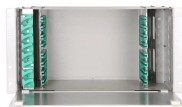

Fiber distribution cabinet is mainly used for connection, distribution and dispatching of communication optical cable from offices to optical distribution nodes, providing a safe, reliable but flexible optical ...

Fiber distribution cabinet is mainly used for connection, distribution and ...

It provides a secure point for splicing, branching, distributing, straight-through, or fiber optic termination, preventing environmental hazards such as dust, moisture, water, or UV rays when used outdoors.

Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and ...

High density 144 cores fiber optic panel integrates optical fiber fusion, disk storage and wiring. Each fusion module can be extracted separately, meeting the requirements of off frame or on frame ...

ODF Optical Distribution Frame 144Core SC/UPC Coupler With Pigtail Optical Fiber Splicing Tray Full Installation Item No.: 01040 OEM & ODM Accepted Request Quote

Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and ...

The URM LH 144S optical distribution box is designed for the placement of 144 optical splices indoor and outdoor. The distribution box may be complemented by a bracket, which enables it to be post ...
