200125 Cable Tray

200125 Cable Tray

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia.

Discover cable trays that elevate your setup. Get easy-install, expandable solutions to neatly organize cords in your office, home, or workspace.

Heavy duty cable trays and cable ladders are manufactured from pre-galvanized or hot-dipped galvanized sheet metal, designed to meet ideal environmental working conditions for indoor and ...

The Ladder Tray features light, rugged, tubular steel construction. It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable. Rail and stringer ...

Channel cable tray secures cables using Eagle Basket pre-punched holes. New pre-punched holes allow the secure attachment of cables to the inside of the channel without the need to drill holes, ...

Its design includes innovative splice components that can reduce the need for supports and brackets, enable fast, one-person installation and lower overall costs. Its I-beam and welded construction offers ...

MP Husky's cable tray selector for choosing the correct tray type (ladder, solid bottom, perforated, wire mesh) and size based on load, cable type and ...

Cable trays are used as an alternative to open wiring or electrical conduit systems, and are commonly used for cable management in commercial and industrial construction. Since the new cables can be ...

Choose from our selection of wire cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.
