Your leading global one-stop shop for all materials, distribution, and supply chain management solutions supporting the telecommunications and broadband industry.

Beginning with optical ground wire (OPGW), introduced in 1984 as AFL's flagship product, the line now spans to cabling solutions being used in the world's harshest environments, including those above ...

OPGW cable is suitable for installation on new power lines with double function of ground wire and communication. Especially for installation on normal voltage and extra high voltage power lines.

Light and compact, it's ideal for connecting and protecting FTTH fiber cables. The FDB-48 Series 48-port Fiber Distribution Box is suitable for FTTH projects and can be used in corridors, basements, rooms, ...

What is OPGW 48 Core Cable? OPGW, or Optical Ground Wire, is a self-supporting cable used for the installation of optical fibers on overhead power transmission lines. It consists of lightning protection ...

The Central Tube Optical Ground Wire (OPGW) is surrounded by single or double layers of aluminum clad steel wires (ACS) or mix ACS wires and aluminum alloy wires, 48 Core OPGW Cable design is ...
