

8-Electronic-16-Optical Switch

8-Electronic-16-Optical Switch

POLATIS Series 6000 Optical Switch Modules (OSM) are high-performance, fully non-blocking all-optical matrix switch modules with port counts from 16xCC up to 48xCC, offering "any-to-any" port ...

1x8, 1x16 Fiber Optical Switches This 1x8 and 1x16 optical switches are ideal modules for applications requiring high optical switchi...

This 8x16 multicast optical switch can implement any optical input and be routed to any of the out ports function. It could be used at key locations in the CDC-ROADM optical network.

This rack-mount device is designed with DiCon's proprietary 3D MEMS mirror technology and delivers industry-leading optical performance. The unit works without any position sensor or feedback loop, ...

MEMS Matrix Optical Switch allow simultaneous connection between a number of input and output fibers, in a fully non-blocking, all-optical, cross-connect configuration.

Switching is achieved through a patented electro-optical configuration that delivers clean, ripple-free transitions, ensuring continuous operation for over 25 years with non-mechanical, ultra-high reliability.

It is a multicast switch module containing an 8x16 MCS and electronic control unit. 2. It has 8 input ports and 16 output ports, and can route any optical input to any ...

Mouser offers inventory, pricing, & datasheets for Optical Switches.

GLsun 8x16 Multicast Fiber Optical Switch (MCS) series are designed for next generation of CDC-ROADM system based on PLC splitter and MEMS optical switch technology.

We offer optical switches with integrated MEMS technology, optical switch kits, and PRO8 modules for fiber-optic circuit integration or construction. A selection of high damage threshold, acousto-optic Q ...

The Fiberer's 8x8 fiber optic switch is a very fast opto-mechanical switch array based on the MEMS technology. They are composed of an optical subsystem and an electrical driver interface. The switch ...
