

Aluminum Alloy Surface-Mounted Explosion-Proof Distribution Box

Aluminum Alloy Surface-Mounted Explosion-Proof Distribution Box

Our main products are explosion-proof lightings, explosion-proof distribution box, explosion-proof cable gland, explosion-proof fans, explosion-proof junction box and anti-corrosion & dustproof & waterproof ...

The BXM (D) series explosion-proof distribution box is a highly secure power distribution and control device specifically designed for explosive hazardous ...

It can be used for power distribution or circuit on-off in circuits below AC 660V, 630A, as well as for lighting or Power distribution And has overload, short circuit, and leakage protection functions.

The BXM (D) series explosion-proof distribution box is a highly secure power distribution and control device specifically designed for explosive hazardous environments.

Copper-free aluminium enclosure, powder coated surface. Equipped with a specialized hinge structure which can prevent damage to the flameproof joints when opening and closing the box and greatly ...

The Huigejia explosion-proof distribution box is constructed from a durable aluminum alloy, integrating power, lighting, and power supply maintenance control. It has passed the national CCC explosion ...

The shell is made of aluminum alloy low pressure casting, the surface of low carbon steel is sprayed with high-voltage electrostatic plastic, and the surface of stainless steel is brushed, which is corrosion ...

Durable to protect your projects well in humid environment. Ultra-strong, fireproof, and incapable of being melted, aluminum metal project box offer the greatest level of security for all electrical wiring ...

Discover efficient aluminum explosion proof distribution box solutions designed for optimal power distribution. Enhance your operations with reliable, durable equipment tailored to your needs.

The outer casing of the product is cast aluminum alloy ZL102. Adopting one-time die-casting process, the surface is smooth, the appearance is beautiful, the internal structure is high in density, the impact ...
