A load center, commonly known as a breaker box or electrical panel, is the main distribution point for electrical circuits in residential, commercial, and industrial settings.

Our product offerings include wall and ceiling fixtures, electrical wires, LED bulbs, breaker boxes, ceiling fans, meter sockets, and Klein tools among other items.

Models include circuit breaker panels, source selectors and instrument panels. Circuit breaker panels are loaded with a breaker assortment to meet most applications.

Choosing the correct circuit breaker for your panel is vital for safety and compliance. Always identify your panel's brand and model, and use breakers that are listed (or properly classified) ...

Versions designed for PDU power distribution purposes in data centers and server room applications.
