Ceramic ferrule design

Ceramic ferrule design

As a part of our technical services, by carefully studying your plant conditions and parameters, we make sure to provide you with the right ferrule design for your specific application.

With an in house tool and die department, Du-Co can assist in the design and development of your custom arc shield (ferrule) requirements. Standard tooling is available on most arc shield (ferrule) ...

We provide stud welders and manufacturers with custom ceramic ferrules that can be used to protect weld studs from weathering and contamination.

Blasch ceramic ferrules provide more effective waste heat boiler tube protection and allow for much greater design flexibility than traditional refractory systems.

Design of the Alumina Ceramic Ferrules: In specially designed High Alumina Ferrules the intermediate collar rests against the tube openings. This ensures that the refractory castable is anchored and ...

Ceramic ferrules are cylindrical components designed to secure and protect stranded wires while simultaneously minimising signal loss due to misalignments during plug-in and disconnections.

The ferrules are individually packed in air bubble sheets and inserted in slotted EPE foam sheets which are placed in cardboard cartons of suitable size. The voids in the cartons are filled with cushioning ...

Kyocera's extrusion molding process creates ferrules with excellent coaxiality, and our precision machining ensures excellent concentricity with precise inner and ...

Kyocera's extrusion molding process creates ferrules with excellent coaxiality, and our precision machining ensures excellent concentricity with precise inner and outer diameters. Our ferrules and ...

Our custom ceramic ferrules are designed to meet unique requirements for a wide range of applications, including medical, military, or scientific integration.

For specialized applications, we can design custom ferrule assemblies with high-precision flanges made of various materials, including stainless steel, nickel plated brass, or copper, to meet your exact ...
