

DIY T-junction for cable trays

DIY T-junction for cable trays

T-pieces RT are used to make T-junctions for KR-type cable trays. Jointing of RT to cable trays is fast and easy, because T-pieces have joint slats already at place.

This allows the tray to rest on each side of a wall opening where in which the tray can not run through. It can also be used to simple support the end of a raceway run.

Cable Tray, Three Phase Sockets & SWA Cable Install - Part 1 How To Make Reducer Cable Tray | 100 mm Senter Reducer | Cable Tray Reducer ✓

It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable. Rail and stringer material is 16 ga steel tubing.

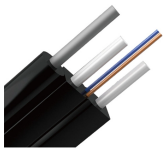

How do you build a T-Junction with QUICKBLOCK? Find out step by step in this downloadable guide.
