

Exfootdr fiber optic tester 100 meters

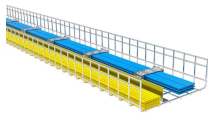

Exfootdr fiber optic tester 100 meters

EXFO AXS-100 Handheld OTDR series covers the whole range of short-haul OTDR test applications. Featuring unrivaled event dead zones and first-class dynamic ranges, it includes four models to ...

These worry-free, straightforward solutions enable accurate measurement of signal attenuation during fiber-optic cable installation. The EPM-100 Power Meter provides highly accurate power ...

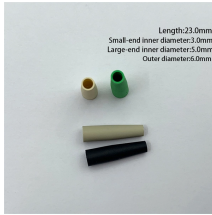

Fully featured, entry-level, dedicated OTDR with tablet-inspired design, suitable for metro and optimized to test through optical splitters, for seamless end-to-end FTTH characterization and troubleshooting. ...

It delivers EXFO's tried and true OTDR quality and accuracy along with the best optical performance for right-first-time results, every time. The plug-and-play hardware options, like the VFL, power meter ...

Optimized for point-to-point testing of passive optical networks (PON) within FTTx architectures, it offers several wavelength configurations and a wide range of options, for first-class flexibility and full ...

These worry-free, straightforward solutions enable accurate measurement of signal attenuation during fiber-optic cable installation. The EPM-100 Power Meter provides highly accurate power ...

This highly efficient on-the-go testing tool is used for fiber tracing with tone detection, measuring absolute power (dBm) and insertion loss (dB). Storage capacity is 100 test results.

Used to characterize optical fibers, the OTDR couples a laser and a detector and is based on the principle of reflectometry. The OTDR sends a pulse of laser light into one side of the optical fiber.

Enhance your fiber optic testing with EXFO MAX-715B-M1-EA-RF, AXS-100, and OX1-PRO-M. Shop now on eBay for an enhanced testing experience!
