

## FDX LED on the optical converter module

### Overview

TX/Act—When it is on, it means the network cable is connected, and when it flashes, it means data is being transmitted. When the connection does not work as expected after we set it up according to the Installation Guide, we need to do some troubleshooting. either included or sold-separately SFP optical module. These devices can be used in stand-alone mode or can be installed within the ComNet CWCHASSIS 19 inch rack. While they are widely used in various network environments, media converters may occasionally encounter issues that impact connectivity and performance. The indicator includes Power, UTP 100, LK/ACT, FDX/COL, Fiber LK/ACT, FDX/COL.

## FDX LED on the optical converter module

The transceivers transmit RS232/RS422/RS485 data over fiber and include features like LED indicators to monitor status, a built-in fiber link test, and options for multimode/singlemode fiber and ...

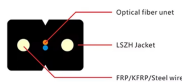

Learn how to identify and resolve fiber media converter issues like power instability, packet loss, and compatibility to keep your network running smoothly.

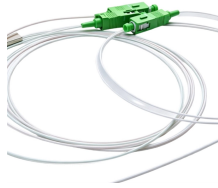

What does the HDX/FDX switch control on this media converter module? The HDX/FDX switch is to set the Duplex of your connection. For half duplex, set switch to HDX. For full duplex, set switch to FDX

There are 6 diagnostic LEDs located on the Front panel of the media converter. They provide real-time information of system and optional status. The indicator includes Power, UTP 100, LK/ACT, ...

The LED status will not change when only the SFP module is plugged in. The LED will only light up when all connections are properly established and functioning correctly.

They use LED lights to visually display the device's operational status and link conditions. Therefore, it's essential to understand these indicator lights when using them.

INSTRUCTION MANUAL CWGE2SFP LED Indicators  
There are 6 diagnostic LEDs located on the Front panel of the media converter. They provide real-time information of system and operational status.
