

# **FTTH Remote Monitoring Type Fiber Optic OTDR Tester**

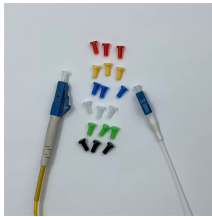

## FTTH Remote Monitoring Type Fiber Optic OTDR Tester

To reach the VIAVI office nearest you, visit [viavisolutions /contact](https://www.viavisolutions.com/contact). Product specifications and descriptions in this document are subject to change without notice.

EXFO RFTM automates remote fiber testing and proactive monitoring with OTDR technology, covering the full fiber lifecycle for P2P and PON networks. Intelligent OTDR-based solution for testing and ...

Discover OTDR, the ultimate tool for FTTH and FTTx fiber optic testing. Versatility, precision and durability for demanding professionals.

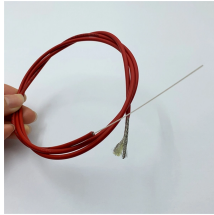

Compact and powerful, the ST-2700 PRO MINI OTDR combines fiber optic OTDR, optical power meter, visual fault locator, TDR, and PoE testing in one handheld device—perfect for telecom, FTTH, and ...

Buy the AFL FlexScan FS200 OTDR – a compact, high-performance fiber optic tester for fast, accurate fiber troubleshooting and link verification. Ideal for FTTH, enterprise, and access networks.

SmartOTU is a standalone remote fiber test solution that can automatically detect and locate faults and monitor fiber networks under both in-service and dark fiber monitoring applications.

GAOTek's Fiber Optic OTDR Tester Optical Time Domain Reflectometer Device is a portable, multi-functional fiber optic tester for FTTH, FTTB, and FTTx networks.

A remote fiber test system (RFTS) is comprised of optical fiber test heads that contain an OTDR, a switch, and processors to collect and transmit data from the tests for analysis.

FTH-5000 Compact Remote Fiber Test Head Automate optical network monitoring with the most compact rack-mounted, remote OTDR test unit on the market

EXFO's remote fiber testing and monitoring (RFTM) solution provides increased visibility over critical fiber routes by connecting them to fixed and centralized OTDR-based test equipment—from the initial ...
