

Fiber Optic Cable Shredding and Sorting

Overview

In this guide, you'll learn what fiber cable actually is, what's inside, how to prep scrap and spools without creating a mess, and which recycling option makes the most sense for a small box vs full pallets. Fiber optic cable recycling is not the same as “copper wire.” Fiber is glass + plastics + strength members, and it often shows up on bulky spools—so it needs the right route, not a random scrap bin. It begins the moment we decide how to handle that tangled mess of cables. FiberMax™ employs a high-resolution sensor to accurately sort fiber material at speeds up to 1,000 FPM (5m/sec). The most sought-after resources are copper and aluminium. ELDAN provide quality machinery for profitable cable recycling, no matter if the input is dry cables, ACSR cable, harness. Corporations Are Using Our Technology to Dispose and Recycle Their Fiber Optic Scrap Learn More About Our Patent-Pending Technology We are one of the only companies that not only recycles your fiber packaging, but also the fiber optic product itself. No matter what type of product reels or housing.

Fiber Optic Cable Shredding and Sorting

FiberMax™ enhances fiber product quality and reduces manual sorting on the fiber QC line. FiberMax™ employs a high-resolution sensor to accurately sort fiber material at speeds up to 1,000 FPM (5m/sec).

Industrial Fiber Optics offers cut-to-length and end-preparation services for purchased spools of bare fiber and single-jacketed fiber cable. Contact Us for quotes on processing GHTT4001, GHTT4002 ...

In this guide, you'll learn what fiber cable actually is, what's inside, how to prep scrap and spools without creating a mess, and which recycling option makes the most sense for a small box vs ...

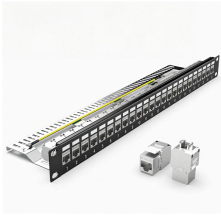

Net Recycling is one of the only companies to recycle Fiber Optic Cable and Fiber scrap. We also assist the Fiber Optic Industries recycle all the packing material that protect the integrity of the cable.

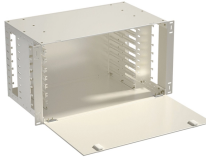

We also offer cable strippers and shears for small capacities or for complimenting other types of cable recycling. ELDAN's cable recycling systems are known for high performance, low production costs, ...

The difference between worthless trash and valuable raw material comes down to one critical phase: waste cable sorting. Our journey starts by understanding that recycling doesn't begin ...

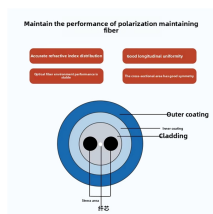

International distributor for fiber optic components, equipment and accessories while providing invaluable technical consultation and support.

4.1 Locate the cable to be cut and respooled. Verify the part number and length on customer order with cable reel data sheet. Double check this information before proceeding.

We offer cable slitting tools and accessories that cover all cable slitting and stripping needs! Fiber cable slitters and other specialized fiber optic equipment.

At MSS, our CIRRUS FiberMax™ technology revolutionizes sorting automation, providing unparalleled operational flexibility and efficiency in recycling. The ultimate optical sorting solution for MRFs ...
