

Fiber optic cable model and serial number

Fiber optic cable model and serial number

Use the code in the “Fiber Type” column to replace the XX notation in the catalog number shown on the catalog page. This identifies the fiber that will be provided with the cable choice.

These measurements are not the actual outer diameter of the cable; they correspond directly to the optical fiber itself. This notation indicates that you are looking at either OM2, OM3, or OM4, as they ...
