

Finland sells optical modules

Overview

October 31 – Radiant Opto-Electronics (6176. TW) today announced the completion of its acquisition of Inkron Oy (Inkron), a Finnish high-end optical materials manufacturer. The share purchase agreement (SPA) was signed on June 25, 2025, establishing the framework for the acquisition. Our products and services include everything from high-precision glass optics, precise imaging systems and imaging modules to fully customizable optodetector modules and light source projects. Their advanced measurement systems, like the HMD IQ, are designed to enhance R&D and manufacturing processes, ensuring. We are your sparring partner for optics, optoelectronics, and all light-related technologies. Together with you, we go beyond borders and realize your visions. Whether it is a product from our extensive portfolio, individual adaptations, or application-oriented new developments – there are many. Kimmy Photonics, where we supply the most precise and reliable optical instruments, lasers, sensors and laser-based solutions for research, industry and OEM.

Finland sells optical modules

Welcome to LASER COMPONENTS Nordic. We manufacture and distribute ...

Photonics Finland members at Photonics West. Photonics Finland is part of the FiCCC consortium, which also includes BusinessOulu, Kvanttinova Oy, and New Factory (image: Photonics Finland)

With over 250 individual and over 130 organizational members, Photonics Finland is the largest photonics community in the Nordics, connecting photonics companies, universities, research ...

Finland has a long tradition of high-tech research and industry, and has a high level of expertise in photonics with many pioneer photonics-related technologies developed in the country.

PSG Optical Components Finland provides an unmatched spectrum of optics, from deep UV to long-wave IR, addressing a wide range of markets including defense and homeland security, ...

With the addition of Inkron, Radiant is extending its reach into high-end optical materials, further enhancing its optical packaging, adhesive, and coating processes. This acquisition underscores the ...

Welcome to LASER COMPONENTS Nordic. We manufacture and distribute components for the photonics industry. No matter if you are located in Sweden, Norway, Finland, Denmark or Iceland. ...

Senop is the leading developer of high-quality custom optics and optical components in the Nordics. Our products and services include everything from high-precision glass optics, precise imaging systems ...

Discover all relevant Optics Manufacturers in Finland, including Optofidelity and iCare

Photonics Finland is a technology operation and ensuring that Finland cluster that promotes the photon- remains a global leader in photonics ics industry and research in Finland innovation and development.
