

Finnish Intelligent Busbar Brand

Overview

Vaski provides innovative solutions for flat bar processing, the largest market being busbar, serving the power distribution and generation, charging station, e-mobility and data center markets. Type A (LBA) suspension brackets can be spaced up to three metres apart and Type B (LBB) up to seven metres apart. LBplus data rails combined with our lighting solutions allow for automatic lighting control. The XCM series is strong and reliable. Their focus on innovative technologies and sustainable designs may align with the needs for flexible busbar applications. Flexibilis, a brand of TTTech Computertechnik AG. Vaski stands at the forefront in flat bar processing, optimised sheet metal handling and custom machines for various industrial needs. With decades of experience and a deep understanding of conductive materials, we support you in every phase of your project - from choosing the optimal conductive. We offer a wide range of busbars manufactured by EAE with nominal currents from 25 A to 6300 A. In addition to busbars we also manufacture grounding bars, N-bars, Pen bars, flexibars and insulated bars.

Finnish Intelligent Busbar Brand

Traditionally, busbars have been made from copper due to its excellent conductivity and durability. However, recent innovations have introduced alternative materials and composite designs ...

BUS BAR PS3/6 Product code 3211052 In stock

As industries modernize, bus bar manufacturers continue to play a crucial role in global electrification. Companies like ABB, Siemens, Schneider, Eaton, GE, Legrand, and Mersen remain ...

Mersen can provide almost any finish to meet your needs. Our finishing includes tin, tin-lead, nickel, copper, silver and gold. Plating under tight, laboratory-controlled conditions, we monitor and control ...

Traditionally, busbars have been made from copper due to its excellent conductivity and durability. However, recent innovations have ...

We offer a wide range of busbars manufactured by EAE with nominal currents from 25 A to 6300 A. All busbars have a protection class of at least IP55. Busbars are a great solution for transmitting and ...

International industrial busbar fabrication for every use case. We manufacture copper busbars and aluminum busbars according to the customer's pictures. In addition to busbars we also manufacture ...

Discover all relevant Flexible Busbar Manufacturers in Finland, including Ensto and TTTech Flexibilis Oy

The steel shells of Zucchini busbars protect against electromagnetic radiation. They create a safer environment for both people and electrical equipment compared to unshielded distribution systems.

Welcome to the future of busbar manufacturing - where precision meets innovation! As one of Europe's largest busbar processors, we offer our customers first-class solutions made of copper, aluminum, ...
