GYFT2Y Optical Cable

GYFT2Y Optical Cable

GYFTY fiber optic cable, a premium all-dielectric (non-metallic) outdoor solution, is engineered to excel in high-lightning, high-electromagnetic interference (EMI) environments where ...

GYFTY fiber optic cable is a non-metallic cable used for power transmission system, excessive thunder areas and high electromagnetic interface. The cable tubes, which are filled with filling compound, are ...

GYFTY cables are available from 2 cores to 144 cores. It is used in high-voltage area for long distance communications. The cable tubes, which are filled with filling compound, are stranded around the ...

GYFTY fiber optic wire is an non-metallic cable used in power transmission system and high electromagnetic interface. It's a perfect fiber optic cable for lighting protection effect with all-dielectric ...

Low coefficient of attenuation and chromatic dispersion. It allows long distance communication, local trunk line, CATV and computer network system, where strong electromagnetic interference or ...

Explore the complete guide to GYFTY cable, a stranded loose tube non-metallic strength member non-armored cable. Learn about its unique features, advantages, and applications in various industries. ...

After the cable core is filled with the filling compound to protect it from water ingress, the cable is completed with a PE sheath. GYTY/GYFTY cable complies with Standard YD/T 901-2001as well as ...

GYFTY all-dielectric outdoor fiber optic cable with FRP strength member and loose tube structure for OSP aerial and duct deployments in EMI-sensitive areas.

Anhui Yetvo Optoelectronics Technology Co., Ltd. is located in Chuzhou City, Anhui Province, China. It only takes about 2 hours to Shanghai and 18 minutes to Nanjing by fast train. We are a high-tech ...
