

Ghana Unicom fiber optic cable broken

Overview

Ghana approved a nationwide “Dig Once Policy” that mandates fiber-optic conduits and access chambers in all new road projects. Road and construction activities caused 60% of Ghana's fiber cuts, including 10,832 outages in 2023–24, costing 138 million cedis in 2024. Dr Kenneth Ashigbey, the Chief Executive Officer (CEO) of the Ghana Chamber of Telecommunications, has expressed concern over recent telecommunications network disruptions caused by recurring fibre optic cable cuts during construction works. 2 million (over GH¢138 million) to the telecommunications industry, according to Dr. This widespread damage resulted in an estimated cost of US\$9.
