

HV702 Microcomputer Relay Protection Tester

HV702 Microcomputer Relay Protection Tester

Microcomputer relay protection tester with a large screen LCD display and flexible and convenient rotating mouse controller. Stand-alone operation has a strong function, can carry out most of the ...

It can perform most on-site testing and verification tasks, validate various relay and microcomputer protection devices, and simulate complex transient, permanent, and transitional faults for ...

The LQHV-702 represents the latest generation of microcomputer-based relay protection test equipment, combining precision measurement with robust safety features for electrical maintenance ...

Can test a variety of relays and microcomputer protectors and simulate complex transient, permanent, conversion of failures to test. Boot to use, easy to operate.

Can test a variety of relays and microcomputer protectors and simulate complex transient, permanent, conversion of failures to test. Boot to use, easy to operate.

Uhv-702 Microcomputer Three Phase Relay Protection Tester Protective Relay Test Set, Find Details and Price about Three Phase Relay Tester Relay Protection Tester from Uhv-702 Microcomputer ...

It can complete most of the field test verification work, can verify all kinds of relays and microcomputer protection, and can simulate all kinds of complex transient, permanent and transformational faults for ...

warranty 1 years Product name Relay Protection AC Phase current output (RMS) 0~40A/phase, 3 phase parallel 0~120A, accuracy: 0.2%

UHV-702 Electronic Microcomputer Relay Tester Secondary Injection Relay Current Protection for Test Device

The HUATAI Microcomputer Relay Protection Tester HTZ-702 is designed to assess the performance of relay protection devices used in electrical systems. It ensures that protective relays function ...
