

How to quickly strip rigid optical cables

How to quickly strip rigid optical cables

The AFL Precision Strip Tool is a fast, simple, and accurate solution for stripping fiber without damage. It is battery-powered and portable, making it ideal for use in the field.

Keep reading to learn how to use standard wire strippers and other specialty tools, a utility knife, or even scissors to strip wire insulation without any hassle.

Do not crush the cable or allow it to kink. Doing so may cause damage that can alter the transmission characteristics of the cable - the cable may have to be replaced.

Trusted since 1958, Jonard's Fiber Stripping Tool is a must-have for all fiber technicians. Shop Jonard's popular collection of fiber optic cable stripper and tools now.

Cleaning up an optical cable quickly and easily involves a few simple steps to ensure that it remains undamaged and functional. Here's how to do it:

In this instructional video, Bob Licari, Test Equipment Product Manager, demonstrates a simple way to strip optical fiber. ...more

Stripping cables is one of the most common tasks in electrical installations. The procedure is the same for almost all cables: cut and strip the sheath, fit the core with a ferrule or connect it to the circuit ...

Fiber strippers are precision tools that reliably and cleanly remove a defined length of coating (often 30–40 mm) from a fiber end so that the bare glass is exposed without scratching or nicking it.

The Jonard Tools UST-540 cable stripping tool is designed to strip COAX, Network Cables, and Telephone Cables for quick and easy termination. This universal stripping features an adjustable ...
