

Indonesia Cold Aisle 19 inches

Overview

Standard 19-inch Design: Fits standard server racks for efficient data center layout. The GSPE Data Center Containment System offers efficient thermal management, separating hot and cold air streams to reduce cooling costs by up to 50%. As a result, it maximizes the system's efficiency, minimizes its power consumption, and reduces its footprint, ultimately making it the perfect. The number one cost of data warehouses is the physical cooling of the building, so the hot aisle/cold aisle idea was proposed to decrease the energy and cost involved in management of servers' temperature in data centers. We provide : Closed Rack, Wallmounted Rack, Opened Rack, Colocation Rack, Air Conditioned Server Rack, Cages for Data Center, Cold Aisle Containment, Rack PDU, LCD console drawer, KVM switch, Environmental.

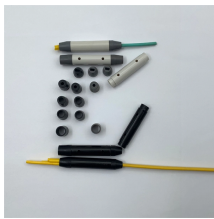

Indonesia Cold Aisle 19 inches

Cold Aisle Containment In-Row Cooling Cold Aisle Containment In-Row Cooling Cold Aisle Containment Read More

By isolating hot and cold airflows, our innovative containment systems optimise cooling efficiency, reducing energy consumption, and improving server performance.

Standard 19-inch Design: Fits standard server racks for efficient data center layout. High-Quality SPCC Cold Rolled Steel: Durable and resistant to corrosion for long-term use. Stock Availability: Quick ...

Enables the isolation of hot and cold aisles, thereby maximizing cooling system efficiency and minimizing cooling energy requirements. Highly modular, scalable, expandable, and retrofitable, ...

19 Inch, Modular Design, Cold & Hot Aisle Containment Modular Data Center Product Application Modular Data Center is designed for equipment rooms, medium- and large data centers. ...

This modular aisle containment solution allows for flexible deployment, with components like roof panels that open in case of fire, ensuring safety while maintaining high cooling efficiency.

Smart Aisle Containment Data Center 600mm
