

Installation of Stainless Steel Distribution Boxes in Australia

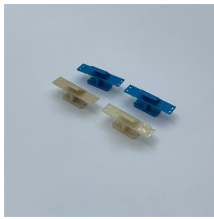

Overview

Logix Engineering Pty Ltd is a wholly owned Australian company, specialising in the design, manufacture, assembly and distribution of electrical enclosures, cooling and monitoring systems for use in the electrical power and data communication infrastructure industries. IPD's metal enclosures are built for reliability in industrial and commercial environments. Tested to international standards and trusted in demanding applications, this warranty reinforces our commitment to long-term protection and reliability. Our 3D enclosure design, prototype and manufacturing capabilities allow you to meet the most challenging installations of all electronic components. At CORN Enclosure Solutions Pty Ltd, we have the perfect solution – our stainless steel enclosures Sydney. Stainless steel is a very tough material. NHP's Panelboard range offers a user-friendly distribution system that is design-verified to the latest switchboard standards AS/NZS.
