

Kenya Tower Communication Base Station

Overview

This tower, located in Shonda South, Likoni, represents a major milestone in our efforts to increase mobile network coverage across Kenya. Atlas Towers remains dedicated to expanding the infrastructure necessary to meet the growing demand for faster and more reliable network. Sealtowers Limited was registered in 2015 and began operations in 2016 as a fully owned Kenyan independent tower infrastructure company. Sealtowers holds a Tier 2 CAK Network Facilities Provider (NFP) License issued by the Communication Authority of Kenya which permits it to acquire, construct. There are 3 MNOs operating in Kenya; market-leader Safaricom and Airtel Africa are highly active in competing for network coverage and quality. Safaricom has deployed around 1,000 new towers in the last 3 years, but Airtel has been aggressively expanding with around 1,000 new towers every year. ATC Kenya is helping to build a more connected world by providing communications real estate solutions—from towers to data centers—to meet today's evolving network demands. Masts / Towers are utilized to achieve the maximum in elevation and loading at an economical cost. Atlas Towers remains dedicated to.
