

Large Core Fiber Fusion Splicer Models

Large Core Fiber Fusion Splicer Models

Discover the Fujikura 100S core alignment fusion splicer—designed for field use with 20% faster cycle time, simultaneous fiber preparation, CT60 cleaver compatibility, GPS logging, Splice Coach ...

We offer a range of equipment necessary for splice various special optical fibers, including polarization-maintaining fibers such as PANDA fiber, thin-diameter fibers, large-diameter fibers, and multi-core ...

With fast splicing and heating times, this splicer is perfect for multi FTTH projects, handling various fiber types including SM, MM, DS, and NZDS. Customers praise the machine's accuracy, speed, and ...

Top-rated models include the Fujikura 90S+, INNO View 8+, and Sumitomo Type-72C+, each suited to different use cases and environments. Proper training, maintenance, and calibration ...

Explore fusion splicers compatible with single-mode, multi-mode, and specialty fibers. Get machines with rapid splicing and integrated diagnostic tools.

Our flag ship model X900 is a single fiber fusion splicer equipped with Japan imported motors for better accuracy and offers the top-notch core-to-core technology.

For the maintenance needs of fiber lasers with different powers, the selection of large core splicers should focus on the fiber diameter range, splicing accuracy, heat source control capability, ...

Our large diameter fiber cleavers produce high-quality cleaves for fibers with claddings from Ø80 µm to Ø1.25 mm, and when used with compatible fiber holding blocks provide easy transfer to the LFS ...

The new Fusion Splicer Series delivers exceptional speed, precision, and reliability, providing fiber optic technicians and network installers with industry-leading tools designed to improve both performance ...

FUSION SPLICERS Mini 4S+ The Most Complete Fusion Splicer Kit Active Alignment Splicer - 4 Motors Learn More
