

Liechtenstein purchases 2 5G telecom-grade routers

Liechtenstein purchases 2 5G telecom-grade routers

The FCC banned the sale of new consumer-grade Wi-Fi routers and mobile hot spots manufactured outside the US. Here's what it means for you.

Do consumers currently using covered routers in small and home offices need to do anything? Are there any restrictions on consumers' ability to use covered routers? Are any foreign ...

Yes, if you have a foreign-manufactured router in your home, you can still use it. Banning routers that are already in people's homes would be impractical, even if the government felt it was...

Update Follows Determination by Executive Branch Agencies that Consumer-Grade Routers Produced in Foreign Countries Threaten National Security

The Federal Communications Commission (FCC) recently issued a Public Notice adding foreign-made consumer-grade routers to its Covered List, thereby prohibiting the authorization and ...

The FCC published an official FAQ on its foreign router Covered List update. Here is what businesses, retailers, and consumers actually need to know right now.

If you've been putting off a router upgrade, now is the time to act. The Federal Communications Commission (FCC) just effectively banned the import of all new foreign-made routers.

On March 23, 2026, the Federal Communications Commission enacted one of the most sweeping consumer technology restrictions in American regulatory history: a blanket prohibition on the import ...

Producers of consumer-grade routers are encouraged to submit an application for Conditional Approval using the guidance attached to the determination. Applications should be submitted to conditional ...

Do consumers currently using covered routers in small and home offices need to do anything? Are there any restrictions on consumers' ability to ...

The FCC order targets all foreign-made consumer-grade routers, but existing models are not banned from use or sale.
