Si lo que necesita es un cable para instalación aérea, resistente y dieléctrico, el cable de fibra óptica ADSS es una excelente alternativa.

ADSS 8 kN FZOMRMU-SD is an optical fibre cable with 24-96 fibres. ADSS (All-Dielectric Self Supporting) cables are non-metallic so they are free from lightning and overvoltage problems when ...

The Outdoor Non-Metallic Mini ADSS Drop Cable is a self-supporting, all-dielectric aerial fiber optic cable designed for FTTH and FTTX distribution networks.

HITRONIC® HQA-Plus Aerial Cable Outdoor self-supporting aerial cable with stranded loose tubes, non-metallic strain relief and PE inner and outer sheath; ...

ADSS (All-Dielectric Self-Supporting) fiber cable is a fully non-metallic cable designed to be installed aerially without the need for messenger wires or grounding, ideal for power line routes.

HITRONIC® HQA-Plus Aerial Cable Outdoor self-supporting aerial cable with stranded loose tubes, non-metallic strain relief and PE inner and outer sheath; ADSS cable type

The Mexico Metal-free Adss Fiber Optic Cable Market is growing differently across regions. North America and Europe are mature markets with strong innovation and stable regulations.

As its name indicates, there is no support or messenger wire required, so installation is achieved in a single pass, making ADSS an economical and simple means of building a fiber optic network.

All-dielectric self-supporting (ADSS) cable is a type of optical fiber cable that is strong enough to support itself between structures without using conductive metal elements.
