

National Energy Internet Project

Overview

The mission of The NEED Project is to promote an energy conscious and educated society by creating effective networks of students, educators, business, government, and community leaders to design and deliver objective, multi-sided energy education programs. Theme: The End is Near: Fight the end of year crazy with these fun energy activities! Join us and bring fresh ideas back to your classroom. Now accepting applications to our annual National Energy. WASHINGTON — Today, National Energy Dominance Council (NEDC) Chairman and Secretary of the Interior Doug Burgum, alongside Vice Chairman and Secretary of Energy Chris Wright, announced a landmark agreement with a bipartisan group of governors to expand the nation's energy supply, safeguard. Since its founding over 40 years ago, NEED has kept its Kids Teaching Kids philosophy as a fundamental principle of NEED programming - encouraging students to explore, experiment, engage, and encouraging teachers to embrace student leadership in the classroom. NEED trains and assists teachers in. Research Partnerships and Tech Transfer supports NETL and NETL staff in identifying, exploring, and securing opportunities to leverage NETL's core capabilities and competencies through

strategic engagement, collaboration, and partnership with domestic and international government organizations. In the next 20 years, almost three billion people will join the middle class, propelling global demand for more and better housing, televisions, cars, food, water, energy, and myriad other goods and services. But, with increasing strain on the planet's resources, meeting this demand could carry. Find free or low-cost resources with our database of Energy Education Resources: K-12th grade.
