

New Solution for Wall-Mounted Energy Storage Units in the Bahamas

Overview

GSL ENERGY has finished a new energy storage project in the Bahamas. The system uses Solar Plus Storage technology to bring clean power and strong backup energy to local homes. It is made of eight 10kWh wall-mounted battery storage units connected in parallel to build a total of 80kWh battery. GSL ENERGY, a professional LiFePO₄ battery manufacturer, OEM/ODM supplier, and factory-direct wholesaler, continues to expand its footprint in the global solar energy market. What is the Bahamas national energy policy 2025-2030?

What. On January 15, 2024, a family in the Bahamas ushered in a major change in their energy use - the successful installation of the GSL ENERGY 20kWh wall-mounted battery home energy storage system. The original intention of installing this system was simple, which was to achieve efficient home energy.

New Solution for Wall-Mounted Energy Storage Units in the Bahama
