

Palau Fiber Optic Cable Laying Manufacturer

Overview

The Belau Submarine Cable Corporation is a state-owned public corporation that will procure, own and manage a fiber optic cable on behalf of Palau. Connecting Palau to the World since 1982. Palau's remote location led to a slow uptake of its information and communications technology. An AIFFP loan and grant package is enabling increased internet connectivity in Palau, with Australia, Japan and the United States supporting construction of a fibre optic submarine cable system. The Strider, a specialised cable-laying vessel, started the pre-shore laying early Monday morning. James Lynch, Deputy Director General of ADB's Pacific Regional Department, and Palau President Tommy Remengesau discuss how high-speed internet services will improve life in the.
