

Price of Radiation-Resistant Optical Cable Sheath

Price of Radiation-Resistant Optical Cable Sheath

UV-Resistant PE Jacket: The cable is sheathed in a black, high-density polyethylene (PE) jacket. This material is resistant to UV radiation (sunlight), abrasion, and harsh environmental conditions, ...

The structure of GYTS optical cable is to insert 250 μm optical fiber into a loose tube made of high modulus material, and the loose tube is filled with waterproof compound.

Reliable GYTS/GYTA Fiber Optic Cable with Central Strength Member. Excellent properties, waterproof design. Order now for high-performance connectivity!

The LSZH sheathed cables are generally used for indoor installation and suitable for wet and damp areas. The galvanized steel wire armour provides excellent protection.

Designed for universal indoor and outdoor installations, this armored central tube fiber cable features LSZH B2ca jacket and robust protection against rodents, UV, and water ingress.

The optical fiber cable component (OFCC) consists of an optical fiber with a 900 micron diameter tight buffer, reinforced with aramid yarn and encased in a 2.0 mm flexible zero-halogen jacket.

Description: 1 Fiber Multimode LSZH Single-Jacket with KFRP Strength member FTTH Indoor Cable
The price on the website is per meter price. The more, the cheaper.

Protect wire and cable from signal distortion caused by nearby equipment and devices. Expandable, this sleeving stretches to fit over items for easy installation, then tightens around its contents for a secure fit.

Global supplier of LSZH Cables with Halogen Free Low Smoke sheathing materials for internal installation. Available from Stock - Technical Support - Fast Quote & Fast Delivery.

Featuring a reinforced TPU (Thermoplastic Polyurethane) outer sheath, this cable delivers superior protection against environmental hazards—including moisture, UV radiation, and physical ...
