

Professional Fiber Optic Communication Fusion Splicer

Professional Fiber Optic Communication Fusion Splicer

The 915FS touchscreen optical fusion splicer uses active cladding alignment technology which allows the technician to reliably fuse fiber optic cables with low splice losses.

Whether you are working on single-mode or multi-mode fibers, these fusion splicers make the process quick and efficient. Designed for professionals, these splicers provide the core alignment and ...

Shop fiber fusion splicers designed for FTTH and telecom applications. Get reliable equipment with fast splicing times and comprehensive accessories included.

These devices align fiber cores or claddings using electric arc technology, ensuring minimal light scattering or reflection, and are essential for high-performance telecommunications, FTTH (Fiber to ...

Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITEL, and FIS. FIS also splicing tools and accessories such as cleavers, thermal ...

The new Fusion Splicer Series delivers exceptional speed, precision, and reliability, providing fiber optic technicians and network installers with industry-leading tools designed to improve both performance ...

The M5 Fiber Optic Fusion Splicer is an intelligent, fully automatic fusion tool engineered for fast, accurate, and reliable splicing of SMF, MMF, DSF, and NZDSF fibers.

Grid Cable for marine and offshore applications

Precision Rated Optics - PRO - Fusion splicers are exceptional units specifically designed for fiber optic interested in the process of fusing fibers at the lowest loss levels obtainable.

An expert resource for selecting the most reliable, accurate, and cost-effective fusion splicers in 2025.
