

## Radio and Television Bureau Removes Optical Cable Lines

### Overview

WASHINGTON —The FCC has announced that it is working to speed up the transition from aging copper lines to modern network infrastructure by reducing regulations governing how operators can retire old copper lines. On March 20th, 2025, the FCC published several changes to the rules around how the carriers that operate the American analog "Plain-Old Telephone Service" (POTS) network are regulated. While it has been on the decline for over a decade, with these changes to the FCC regulations, the POTS network. The Media Bureau has repealed 43 regulations relating to cable and satellite service providers it has deemed "obsolete" and "unnecessary" WASHINGTON —The Federal Communications Commission is once again pressing the delete button as part of its "Delete, Delete, Delete" regulatory initiative to. ts "Delete, Delete, Delete" initiative. The "In re: Delete, Delete, Delete" proceeding launched a sweeping review aimed at eliminating outdated rules, reducing unnecessary regulatory burdens, accelerating infrastructure deployment, promoting network. In this document, the Federal Communications Commission (FCC) eliminates unnecessary cable rate regulation forms and rules; deregulates cable equipment not used exclusively

to receive the basic cable service tier; deregulates small cable systems serving 15,000 or fewer subscribers that are owned by.
