## Relay protection instruments that are relatively easy to use

Siemens' universal protection relays portfolio includes products such as SIPROTEC 7SX800 and 7SX85 to provide flexibility and cost savings. Our devices cover a wide range of ...

With over 60 years of relay testing experience, the Megger MPRT8445 incorporates the latest in Digital Signal Processor (DSP) and microprocessor-based technology, to provide a powerful, easy to use ...

T1200 Six Phase Relay Protection Tester ★Output Voltages □110V (1A) -220V (0.6A) ★Power supply □AC220V±10% 50Hz ★Three-phase parallel output □0-180A ★Time range □1ms -9999s ...

From commissioning engineers needing to ensure compliance to dedicated relay engineers requiring greater power and amplitude to handle a wide spectrum of test situations, SVERKER900 is the ...

Relion protection and control relays for several application reduce complexity. Long term cost reduction (TCO) for trainings and maintenance by reduce variety of relays.

Ensure the reliability and safety of your protection system with Megger's specialised tools and accessories—ideal for testing auxiliary relays and handling complex or critical applications with ...

Eaton's protective relays provide you with unique microprocessor-based devices that eliminate unnecessary trips, isolate faults, protect motors and breakers, and provide system information to help ...

Find product information on Littelfuse relay test equipment for ground fault protection and reliable testing of current and time-delay pickup levels.

KPM relay testing equipment with high current rating, precision & advanced software. Ideal for distance, differential, df/dt & protection relay testing.

Relay protection schemes are installed to detect and isolate faults promptly, protecting expensive equipment and ensuring uninterrupted power supply. To validate and optimize the ...
