

Singapore Optical Cable Project

Overview

The project is a 24-fiber pair, 8,000-km submarine cable system connecting Japan, Taiwan, the Philippines, Indonesia, Malaysia, and Singapore, scheduled to begin operations in 2028. This role builds upon a long legacy dating back to the 1870s, when telegraph cables linked the city-state to. ARTERIA Networks Corporation (Headquarter: Minato-ku, Tokyo, Representative Director, President: Tatsuya Abe, hereinafter referred to as ARTERIA) announced the signing of a contract with NEC Corporation (NEC; TSE: 6701) to build the Asia United Gateway East (AUG East) submarine cable system. Singapore, 16 July 2025 - Singtel and a group of leading telecommunications and tech companies today announced the signing of a contract with NEC Corporation to build the Asia United Gateway East (AUG East) submarine cable system connecting Singapore and Japan, with Brunei, Indonesia, Malaysia, the Washington, D., Jakarta, Kuala Lumpur and Tokyo, Sep 22, 2025 - Meta, SoftBank Corp., PT XLSmart Telecom Sejahtera Tbk, and NEC Corporation are collaborating to develop the Candle submarine cable system. The Candle submarine cable system is a 24-fiber. Set to be completed by late 2029, the 8,900-km Asia United Gateway East system aims to boost bandwidth, network

resilience and digital connectivity across the region.

Singapore Optical Cable Project

Targeted for completion by the third quarter of 2029, the 8,900 km high-capacity cable system will support the demand for more bandwidth across this route, enhancing digital connectivity ...

SINGAPORE -- A consortium led by Singapore Telecommunications and Japan's NEC will build a high-capacity subsea cable linking the two nations, amid surging demand for data ...

A group of leading telecommunications and tech companies have signed a contract with NEC Corporation to build the Asia United Gateway East (AUG East) submarine cable system ...

Keppel is co-developing the Bifrost Cable System, the first subsea fibre optic cable system directly connecting Singapore to the West Coast of North America via Indonesia through the Java Sea, ...

These projects will require an estimated \$7.4 billion in investments, predominantly funded by the private sector, and will strengthen Singapore's role in global data flows, improve ...

Called the Asia United Gateway East (AUG East), the subsea cable will connect Singapore and Japan, with Brunei, Indonesia, Malaysia, the Philippines, South Korea and Taiwan. It ...
