Solution Micro Module 4U

Solution Micro Module 4U

We, Solution 4 U, are one of the most prominent manufacturers and rapid prototyping service providers. Set up in 2003, we are enriched with a vast industry experience. Our offered range of services is ...

Supermicro 4U Cooling Distribution Unit (CDU) contains the pumping system that circulates coolant to the cold plates, which carry heat away from CPUs, GPUs, and DIMMs.

Waterproof and dustproof, reliable and safe
The outer classic sink design allows the sealing ring of the cabinet and door to be seamlessly compressed without leaving a trace of gaps

Our molding shop has 16 machines at two facility which are micro-processor based and have PID temperature control. All these machines have adequate material loading facilities like hopper dryer ...

Both 8U air-cooled and 4U liquid-cooled configurations are available, providing up to 7.5x performance gains over NVIDIA Hopper systems, along with 288GB of HBM3e memory per GPU* to tackle ...

For maximum GPU density, a liquid-cooled 4U architecture can be integrated using Supermicro's complete direct-to-chip liquid cooling solution, allowing up to 8 systems in a standard 48U rack for a ...

Professional server cooling solutions for 1U, 2U, and 4U rack servers. Custom liquid cooling systems for servers, GPU water blocks, and data center cooling solutions for AI, HPC, and high-density ...

Supermicro delivers a completely tested solution, including servers, racks, networking, liquid cooling components, and liquid cooling tower which speeds up time to deployment and results in higher ...

Its compact 4U design installs easily at the top or bottom of any standard 19" rack enclosure, seamlessly integrating into your existing infrastructure. In high-density environments where every watt counts, ...

4U rackmount chassis is a cost-effective computer chassis featuring a complete line of backplanes, power and storage device options. The 4U computer chassis provide the best support for various ...

Supermicro's SuperCluster solution provides foundational building blocks for rapidly evolving Generative AI and Large Language Models (LLMs). The full turn-key ...

At SC23, we took a look at the new Supermicro 4U Universal GPU system. Supermicro has a number of 8U models that are optimized for either air or liquid cooling, but this design is ...
