

# Trapezoidal horizontal cable tray

## Trapezoidal horizontal cable tray

From heavy power cable pathways on oil drilling platforms to data center cabling, explore the cable tray that's strong yet easy to install. Fast installation with dependable support.

Our cable tray systems securely hold and protect cables and come in many models and sizes, solid bottom and ventilated.

Trapezoidal cable trays are generally made of metal or aluminum, have excessive energy and corrosion resistance, and they can be custom-made as wished to meet exclusive cable routing needs.

A trapezoidal cable tray is a cable tray composed of two longitudinal channels connected to a horizontal support crossbar. Trapezoidal cable trays are typically made of steel and FRP.
