Removable hinges
Make operation more convenient

Sealing strip
Dustproof and waterproof

Overview

Bottom Line Up Front: Your home's distribution box (electrical panel) is typically located in the basement, garage, utility room, or mounted outside near your electrical meter. To find it quickly, look for a rectangular gray metal box about the size of a medicine cabinet, often positioned close to. Electrical systems power our homes, offices, and industrial facilities, but behind every reliable electrical setup lies a crucial component that often goes unnoticed: the distribution box. It is where the main electrical service enters your house and is distributed to different areas and appliances. From the lights in your home to the chargers that power electric vehicles, this vast and complex network ensures that energy flows. Even if you're an experienced homeowner or contractor, the complexity of wiring a home's electrical distribution board can be daunting. A distribution board (also known as a service panel or breaker.

Where is the household electrical distribution box
