

Where to import the front panel

Overview

Thanks to the DXF import assistant (File > Import), you can generate your entire front panel directly from your DXF file. Outer contours, drill holes and cut-outs are recognised and can be applied selectively to the FPD file. Print files can be imported directly into your front. Front panels with different basic shapes can be created in Front Panel Designer. Dimensions can be entered in mm or inches and in rack units and horizontal pitch units for 19" systems. dxf I'm trying to use Mol to create panel. be/uSz3E7Ejl-Y?
